British ship Pathan, from New York, Overhauled Off Formosa.

Yokohama's Second Army Corps Embarks for the Yellow Sea.

(By Associated Press.)

SHANGHAI, Sept. 25.—A Chinese warship on Friday last intercepted the British ship Pathan in the Formosa Channel, upon suspicion that she was carrying munitions of war to Japan. The ship was taken to Koo-Lung, a treaty port of the island of Formosa, where her cargo was overhauled by the Chinese authorities. The result of the investigation is not yet known.

LONDON, Sept. 25.—A despatch from Tokyo, received here to-day, says that the second Japanese Army for field service, mobilized at Hiroshima, and consisting of 20,000 men under the command of Field Marshal Count Oyama, embarked yesterday amid intense enthusiasm.

The Emperor reviewed the troops and then the transports, escorted by the second Japanese squadron, sailed away. Their destination is unknown, although it is reported, vaguely, that the squadron is bound for the Yellow Sea.

During the absence from Japan of Field Marshal Count Oyama, who is also Minister of War, the Minister of Marine will assume the duties of Minister of War, in addition to his other responsibilities.

It is officially announced at Tokyo, says another despatch from that city, that the report that the Japanese Government had proposed by England and Russia a joint expedition to Korea, which was proposed by England and Russia, is untrue.

The Daily Telegraph says it is authorized to deny that the Japanese Government has concluded an alliance with Russia and France.

The Pathan, referred to as being overhauled by a Chinese warship, was a British steamship, Capt. Rice, which sailed from New York on Sept. 15, for Aden, Hong Kong and Shanghai. Her agents here were Barber & Co.

The Pathan touched at Aden on Aug. 25, arrived at Hong Kong on Sept. 15, and if she is the vessel seized, was apparently on her way to Shanghai when overhauled.

The steamer's agents said that her cargo consisted of what in shipping circles is termed "domestics." She had on board cotton, looms, oil, wax, 60 tons of spinning machinery, six locomotives and other goods of a miscellaneous nature.

The only munitions of war on the list, they added, were one case of revolvers for Koo-Lung, Japan, and one case of cartridges for Yokohama.

Mr. Barber said that this was an unusually light shipment, as vessels in the China and Japan trade generally carry ten or fifteen cases of revolvers, etc., on each trip.

OTTO STILL MISSING.

Young Markert's Mother Positive He Was Kidnapped.

He Was a Broker's Messenger and Disappeared Last Friday.

(By Associated Press.)

OTTO Markert, the fifteen-year-old messenger of Berlin & Son, brokers, at 39 Broad street, has disappeared as completely as though the earth had opened and swallowed him.

Since the moment on Friday morning that he parted with a friend in a City Hall blue car on his way to work he has not been seen or heard of by any one who knew him.

The absolute effacement from the world that knew him is given public interest by every feature of the case in these lawless times.

It is known that Otto is kept from his mother by the fact that he is able to do so, he would come home or send me word," sobbed his mother this morning.

That she had just grounds for her faith in her boy is not to be disputed. The boy was a good boy, on the testimony of the neighbors and his employers, who will not fill his place until assured that he will never come back.

The most extraordinary efforts have been made in the past week to locate Otto. Two general police alarms have been sent out in neighboring cities. Inspector McLaughlin has worked every case in person; the Gerry Society has multiplied copies of the boy's photograph and scattered them broadcast, and every spot that the boy might visit of his own accord has been repeatedly searched.

Otto is the younger son of Andrew Markert, a barber, living at 401 Fourth street. He was taken out of school about a year ago and put to work in the shoe business at Berlin & Son.

At his home Otto was quiet and studious. He never left the house upon returning from work. He found his only companions among the fisher boys who live in the same neighborhood, and their pleasures lay chiefly in music, horse games and the reading of books from the sixteenth street circulating library.

At the office, Otto is said to have been a quiet, unassuming and intelligent. He was regularly trusted with errands to the banks, and on occasions he often carried sums of money.

Friday morning Otto left home with a general alarm, and he was not seen again. This boy said that night, as soon as Mr. and Mrs. Markert became alarmed, they searched the streets and the city, but they have not been seen in either place.

Mrs. Markert was asked by an "Evening World" reporter to-day to read books of adventure that might excite a taste for wandering. She said that he usually wore a blue suit, a black derby hat, black necktie and vest, and carried a brown striped bag and a light-colored shirt, brown striped trousers and lace-up shoes.

The alarm was repeated last Monday. The mother had been twice to Carteret, N. J., where her eldest son lives, and has written to her cousin in Orangeburg, N. C., but she has not been seen in either place.

BABY SCALDED TO DEATH.

Threw Hot Coffee on Itself and Died of the Effects.

Bernard Slavovsk, a Russian Pole, who lives at 37 Ludlow street, was at the Coroner's office early this morning to get a permit for the burial of his infant daughter, Eva, who died yesterday morning from the effects of being scalded with hot coffee last Saturday morning. The baby was only seven months old.

Last Saturday morning her mother, Lena Slavovsk, was giving her children their breakfast. They were sitting on the floor, and the baby, who was three, too, in a high chair, Mrs. Slavovsk poured out some coffee in the stove to get the rest of the breakfast. While her back was turned, the coffee spilled over herself. Her face and head were terribly scalded. She was at the Coroner's office yesterday, and the body of the baby was buried in Silver Lake Cemetery, Staten Island.
